The poinsettia

is a traditional flower popular around Christmastime. It's originally from Mexico and other parts of Central America, where it's known as the "flower of Holy Night." The first American ambassador to Mexico, Dr. Joel Roberts Poinsett, brought it to the states in 1829. Poinsettias also contain toxins that can be harmful to pets, so don't let your dog or cat chew on it!

The Borough office will be closed on the following dates...

Monday, January 2nd
Friday, April 14th
Monday, May 29th
Tuesday, July 4th
Monday, Sept 4th
Friday, Nov 10th

Go Green, Save a Tree

If every American household used eBills and online bill pay, it could reduce solid waste in U.S. landfills by more than 800,000 tons a year and help curb the release of greenhouse gases by 2.1 million tons, according to Javelin Strategy and Research. This could also save an estimated 18.5 million trees a year!

Winter Weather Advisory

During a winter weather advisory, which is issued by the Office of Emergency Management of York County, residents are recommended to limit automobile travel during the storms as much as possible. A Winter Weather Advisory means that periods of snow, sleet or freezing rain will cause travel difficulties. Motorists should be extra cautious and prepared for slippery roads and limited visibility. All motorists should have a winter emergency kit in their vehicle.

The kit should include:

A shovel, ice scraper, flashlight, extra batteries, water, snack food, blanket (s), rope or tow chain, flairs and road salt.

IMPORTANT !!!! Stewartstown Borough is requesting customers to NOT flush wipes down the toilet. Baby wipes, floor-cleaning wipes, other disposable wipes, even “flushable” wipes and feminine hygiene items all can cause major headaches and costs in a sewer system. These products can particularly cause pumps to clog and sewage to back-up. The costs of clogging pumps or even upgrading of pumps are ultimately a sewage customer cost. In addition to wipes and “flushable” wipes, customers are again requested to not dispose of fats, oils and grease down household drains and plumbing. These materials should be collected and disposed of with regular trash.
